

Bobbi Luttjohann

Bobbi is an Environmental Scientist and Water Resource Planner responsible for advising the Neosho, Marais des Cygnes, and Verdigris Regional Advisory Committees. She also contributes to Streambank Stabilization Projects, Vision Education and Public Outreach, the Kansas Water Plan, and the Sediment Monitoring Plan.

Bobbi attended the University of Kansas and graduated with a B.S. in Environmental Studies in 2003. She has completed courses through the Konza Prairie KEEP Docent Program and graduated as a Kansas Masters Naturalists and Docent of the Konza Prairie in 2016. She currently holds a B.S. with Kansas State University.

Previous roles include a lab technician with the Kansas Department of Health and Environment, and as an Environmental Scientist with the Division of Water Resources – Kansas Department of Agriculture focusing on water rights.

A lifelong Kansan, Bobbi and her family enjoy this amazing state and work to take advantage of the many outdoor activities it offers. As an active volunteer, she is a coach for the Girls on the Run (YWCA) and is active in the Shawnee County 4-H Program, including the Dairy Cattle Project.
