

Diane Knowles

Diane is an Environmental Scientist with primary responsibilities in basin planning, High Plains aquifer programs and policies, oil and gas activities, and drought. She is active in many projects related to groundwater, water supply, water management and characterization, and water conservation.

Her drought responsibilities center on monitoring climate and water resource conditions, preparing periodic status reports, making recommendations for drought declaration and coordinating drought related actions.

Diane is a licensed geologist with the Kansas Board of Technical Professionals and a Registered Environmental Health Specialist/Registered Sanitarian with the National Environmental Health Association. Previous positions were with the State of South Dakota, Southwest Kansas Groundwater Management District No. 3 and the Southwest Kansas Local Environmental Planning Group. She holds a degree from Weber State University in Utah in geology.
