

Katie Goff

Katie is a Water Resource Planner who specializes in Geographic Information Systems (GIS) applications and serves as a member of the state interagency streambank team, where she is project manager for the Streambank Geodatabase. Additionally, Katie serves as the KWO Project Manager for the Lower Republican River Project, which includes managing implementation projects on the ground and the coordination of stakeholders within the Lower Republican River basin.

Katie studied abroad in 2010 at the University of Canterbury; in Christchurch, New Zealand where she studied Ecology. She graduated from the University of Kansas with a B.G.S. degree in Environmental Studies in 2012. While at KU, Katie completed an internship with the Kansas Water Office, which has led her to become the Internship Coordinator for this agency to assist students in their own professional journey.

Katie and her husband live in Topeka with their cat, Leonidas.
