

# Sustainable Food Production

Kansas Governor's Water Conference

November 7, 2019

## OUR PURPOSE

---

Raising the world's expectations  
for how much good  
food can do.

## OUR STRATEGY

---

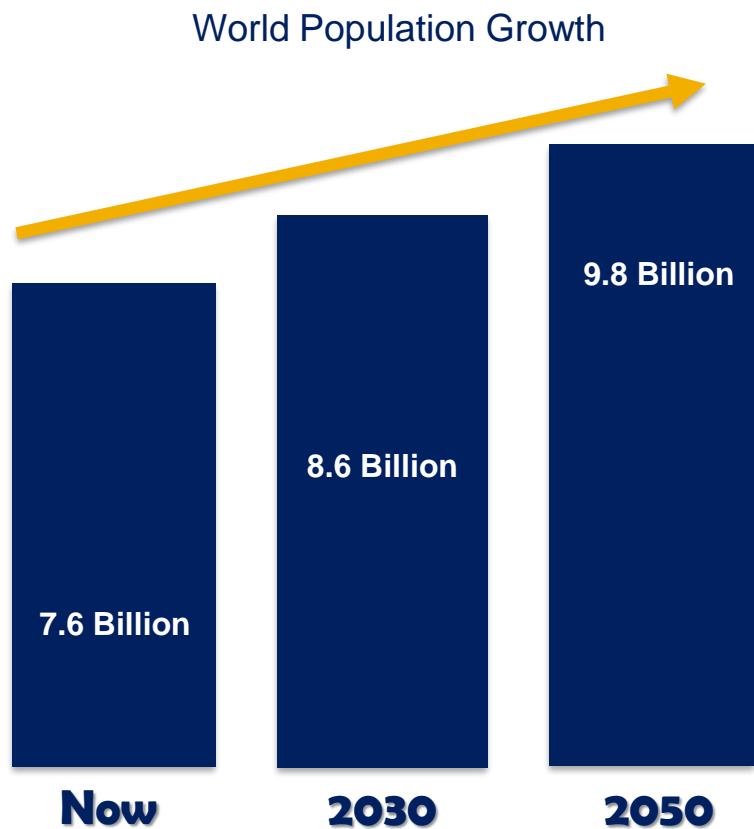

Sustainably feed the world  
with the fastest growing  
protein brands.

# Sustainability is integral to feeding the world

The world must produce more food in the next 40 years than it has in the last 8,000 years.

How do we provide the right nutrition for **2 Billion** more people with fewer environmental impacts, while ensuring continued economic and social development?

# Tyson's Approach

We're taking a holistic approach because all parts of sustainability are interconnected. Our approach reflects global concerns and is inclusive of material issues important to our stakeholders.

**Animal Welfare**

**Environment**

**Workplace**

**Community**

**Food**

# Tyson's Sustainability Strategy

## Commitments

---

Establish public, bold and enterprise-wide commitments across our material sustainability issues and report regularly on our progress

## Action

---

Build a pipeline of new sustainability initiatives to deliver on our new commitments, while continuing to execute on existing programs

## Engagement

---

Increase transparency and engagement with key stakeholders, including our team members, customers, investors, consumers and NGOs

## Innovate

---

Build innovative tools, processes and performance metrics to ensure accountability and drive lasting impact in the food industry

---
