(cc) = Core Category

Regional Planning Area in south central Kansas.

Size: 5,825 sq miles

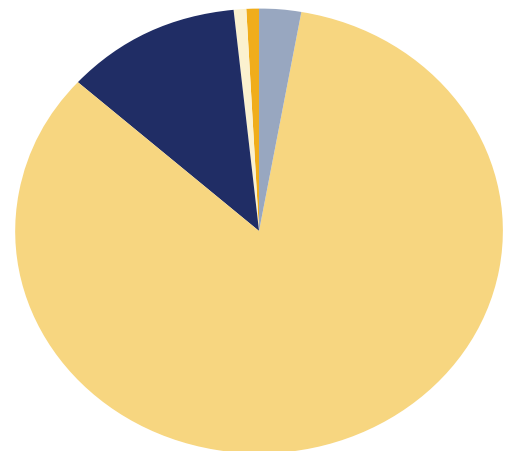

Precipitation: Yearly average of 22-37 inches W-E

Gypsum Hills, Medicine Lodge, Kansas

WATER SUPPLY & USAGE

Groundwater is the primary source of water in the region, accounting for over 96% of the total supply.

- Irrigation 84%
- Municipal 12%
- Industry 3%
- Recreation 1%
- Stockwater 1%

CURRENT FOCUS AREA

A pilot project in 2017-18 will look at treatment of produced water for reuse. This is an early step in reducing fresh water use and could be an additional supply for this region.

Clark County State Lake, Clark County, Kansas
