

3 Smoky Hill-Saline

Goal 1: Increase available water supply, water supply storage and interconnectivity among public water supplies.

Goal 2: Provide a statewide conservation education program/model which quantifies water conservation efforts.

Goal 3: Support a statewide conservation education program/model for public water supplies.

Goal 4: Increase public water supply use efficiency.

4 Solomon-Republican

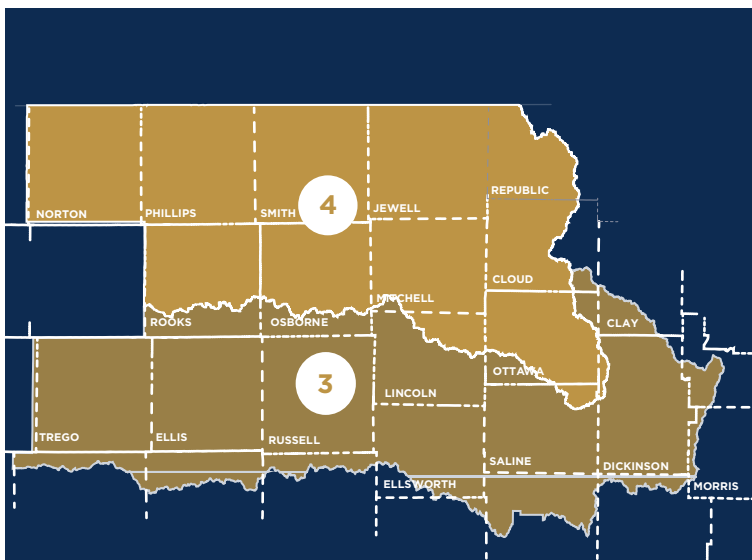

Goal 1: Develop and maintain technical tools, agreements and agency personnel for use alternatives for Solomon-Republican region waters.

Goal 2: Reduce inbound sediment loads through conservation measures.

Goal 3: Complete bathymetric assessment every 10 years on all reservoirs in the region and initiate actions to determine the source and remedies.

Goal 4: Maintain and fund a Kansas Administrative Team to facilitate Republican River Compact compliance.

Goal 5: Complete an annual assessment of streambank and ditch erosion.

Compare/contrast Regional Advisory Committee goals in your region.

How are they similar and different? (Are there language differences? Are there differences in priorities?)

On a scale of 1 - 5 with 1 being very different and 5 being very similar, how aligned do you think these RAC goals are with each other?

- 1 2 3 4 5

Table with 2 columns: GOAL AREA and KANSAS WATER AUTHORITY (KWA) SIMPLIFIED STATEWIDE WATER GOALS. Rows include High Plains Aquifer, Reservoir, Water Quality, and Overarching.

How do your priorities compare with the Kansas Water Authority goals?

Do you see expanding your regional priorities to include those Kansas Water Authority authority goals? If so which ones?

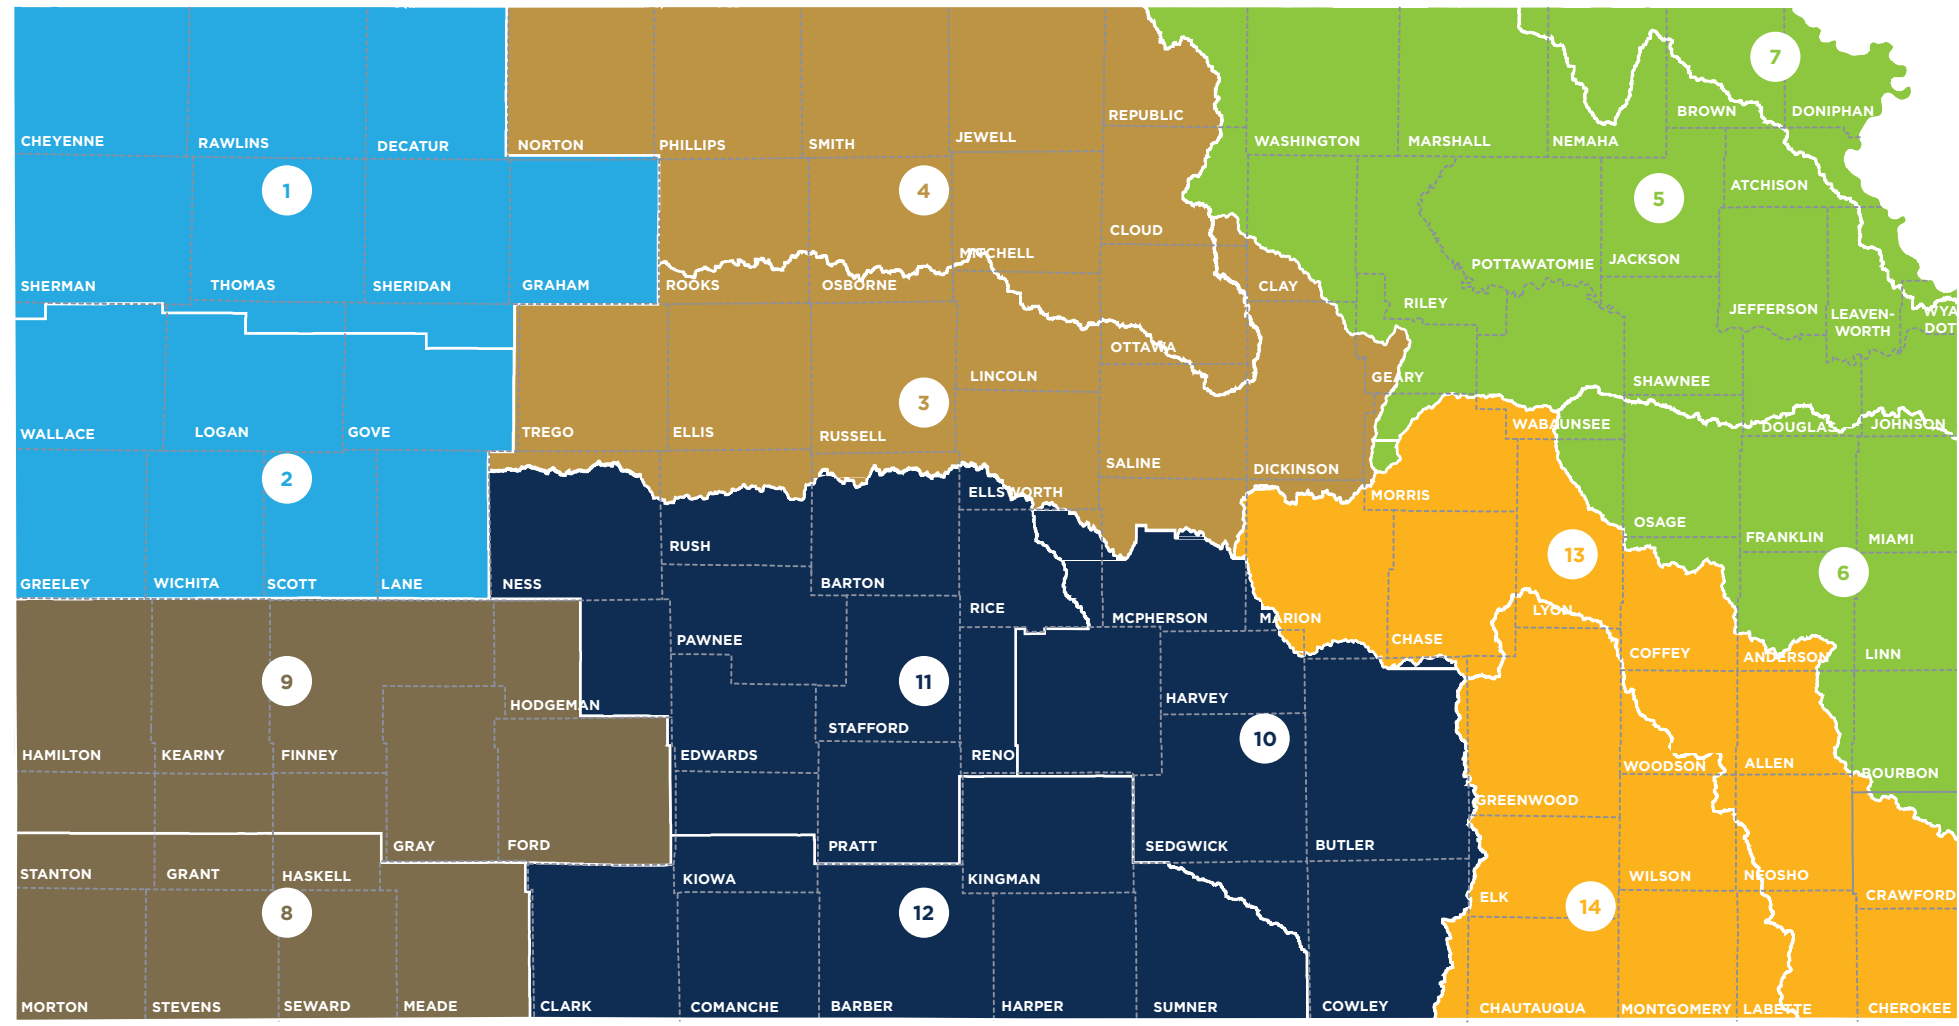

Four horizontal lines for writing answers to the first question.

Which goals, if any, don't fit your region?

Four horizontal lines for writing answers to the second question.

Kansas Water Plan Implementation: REGIONAL ADVISORY COMMITTEE (RAC) GOALS

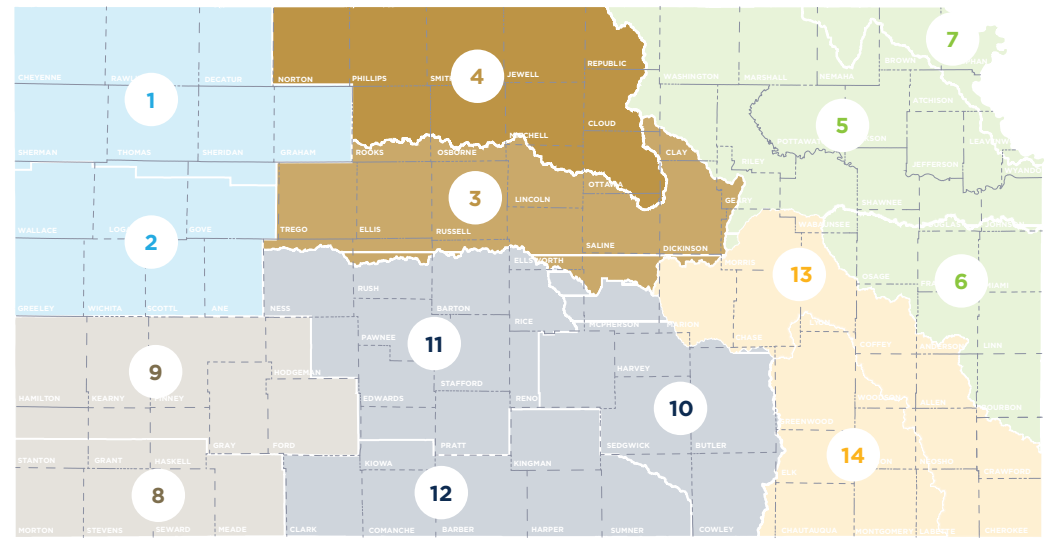

RAC/regional goals often vary by water source and use. Compare and contrast your region with other regions.

? Do any of the other regions' goals surprise you? _____

? Looking at the Kansas Water Authority goals that might not be relevant for your region, what questions do you have about statewide goals?

GOAL AREA

HIGH PLAINS AQUIFER

KANSAS WATER AUTHORITY (KWA) SIMPLIFIED STATEWIDE WATER GOALS

- Halt the decline of the Ogallala
Restore and maintain natural streamflow
Maximize the economic output of all water users

RESERVOIR

- Adequate storage for all climate conditions
Promote and incentivize regionalization
Promote land management practices to reduce sedimentation

WATER QUALITY

- All water sources are free of all forms of pollution and contaminants

OVERARCHING

- Education and Outreach
